BILLING CODE 6718-06-P

[Docket No. FEMA-REP-2-NY-3]

Approval of the State of New York Radiological Emergency Response Plan Site-specific to the Indian Point Nuclear Power Generating Station

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: FEMA gives notice of its approval of the State of New York Radiological Emergency Response Plan site-specific to the Indian Point Nuclear Power Generating Station located in Westchester County, New York.

DATES: This approval is effective as of May 3, 1996.

FOR FURTHER INFORMATION CONTACT: Regional Director, FEMA Region II, 26 Federal Plaza, room 1337, New York, NY 10278-0002, (facsimile) (212) 225-7281. Please refer to Docket File No. FEMA-REP-2-NY-3.

SUPPLEMENTARY INFORMATION: On May 3, 1996 the Kay C. Goss, Associate Director for Preparedness, Training and Exercises, Federal Emergency Management Agency, reviewed and approved the State of New York Radiological Emergency Response Plan site-specific to the Indian Point Nuclear Power Generating Station, as follows:

"In accordance with the Federal Emergency Management Agency (FEMA) Rule, 44 CFR 350, the State of New York originally submitted the offsite radiological emergency response plans site-specific to the Indian Point Nuclear Power Generating Station, located in Westchester County, New York, to the Regional Director of FEMA Region II on August 17, 1981, for FEMA review and approval. On October 28, 1991, the Region II Director submitted an evaluation and recommendation for formal approval of the offsite plans and preparedness to the Associate Director for State and Local Programs and Support in accordance with Section 350.11 of the FEMA Rule. However, during the Headquarters review process several issues were identified which were referred back to FEMA Region II for clarification.

"The Regional Director subsequently addressed the issues requiring clarification and resubmitted the evaluation to FEMA Headquarters on November 29, 1995. Included in this

evaluation was a review of the full participation offsite radiological emergency preparedness exercise conducted on June 15, 1994, in accordance with 44 CFR 350.9.

"Based on the evaluation and recommendation for approval by the FEMA Region II Director, the review by the Federal Radiological Preparedness Coordinating Committee (FRPCC), and the review by the FEMA Headquarters staff in accordance with 44 CFR 350.12, I find and determine that the State of New York and local offsite radiological emergency response plans and preparedness site-specific to the Indian Point Nuclear Power Generating Station are adequate to protect the health and safety of the public living in the vicinity of the plant. The offsite radiological emergency response plans and preparedness are assessed as adequate in that there is reasonable assurance that appropriate protective measures can be taken offsite in the event of a radiological emergency and that the plans are capable of being implemented.

"The prompt alert and notification system installed and operational around the Indian Point Nuclear Power Generating Station was previously approved by FEMA on March 27, 1992, in accordance with the criteria of NUREG-0654/FEMA-REP-1, Rev. 1, Appendix 3, and FEMA-REP-10, "Guide for the Evaluation of Alert and Notification Systems for Nuclear Power Plants."

"Accordingly, I approve the New York State and local offsite radiological emergency response plans and preparedness, site-specific to the Indian Point Nuclear Power Generating Station. FEMA will continue to review the status of offsite plans and preparedness site-specific to the Indian Point Nuclear Power Generating Station in accordance with Section 350.13 of the FEMA Rule.

"For further details with respect to this action, refer to Docket File No. FEMA-REP-2-NY-3 maintained by the Regional Director, FEMA Region II, 26 Federal Plaza, Room 1337, New York, New York 10278-0002."

Dated: May 3, 1996.

Kay C. Goss,

Associate Director for Preparedness, Training, and Exercises.
